

UCI Swept Lance Armstrong Positive Drug Test

Special Report by <http://www.isteroids.com/>

- 
- World governing body of cycling swept a positive drug test of the seven-time Tour de France winner Lance Armstrong under the rug, claims The Sunday Times of London.
 - The newspaper cited sources familiar with the upcoming report by the USADA on why it stripped and banned the cyclist for life.

- 
- The USADA report is believed to be on the same lines as the steroid report submitted by Sen. George Mitchell.
 - The USADA report would go into greater details about the performance enhancing drug scandal of cycling.
 - The report is believed to have testimony of Floyd Landis, Tyler Hamilton, and Frankie Andreu, all of whom have accused the cyclist of doping.
